Washington, September 17 .- Weeks, months, or possibly years might roll by before the Supreme Court would act legally should Harry Thaw appeal from the decision in the habeas corpus proceedings now pending in New Hampshire. Of late, however, the court has disposed of such important

cases quickly.

Whether an appeal to the Supreme Court from the action of Federal Judge Aldrich, before whom the habeas corpus proceedings were brought, may be granted will rest entirely, it is said, with Judge Aldrich himself.

A few years ago, an appeal from the denial of the writ of habeas corpus denial of the writ of habeas corpus was grantable as a matter of right. Practice grew up, however, which courts regarded as travesties on justice, and the law was changed to give the judge passing on the case the power to say whether there was sufficient doubt as to the points raised to justify an appeal. justify an appeal.

Many Cases Ahead. The Supreme Court does not meet

before October 13 There are now more than 700 cases awaiting disposition, and it will take the court more than two years to pass on them. Upon the request of either on them. Upon the request of either the State of New Hampshire or of New York, the court might advance the case for consideration about the first Mon-day in December. In the ordinary course of events, a decision would be handed down in the following January. Much doubt is expressed here as to

through the Federal reserve banks government obligations. The Republicans declared this, and a provision making the notes payable "in gold and lawful money" indicated a return to "greenbackism," and declared that Secretary Bryan had written into the bill

has contended since 1896." The committee proposed, and the House wrote into the bill an amendment, which prohibited Federal reserve banks from engaging in loan transactions with anyone other than the government.

This change was made to prevent the Federal reserve banks from engaging in a commercial business in competi-tion with the member banks, which are forced to supply the capital on which erve banks will operate No Obstructive Tactics.

No obstructive tactics were resorted o by the opposition, and the reading of the measure for amendments went smoothly. Problems of note issue, and questions of whether the government or the banks should control the issue of paper currency, occupied much of the attention of the Senate committee during its hearing on the currency bill to-day. William H. Berry, collector of customs at Philadelphia; John Claffin, of New York, and Prof. O. M. W. Sprague, of Harvard University, were

Prof. Sprague indorsed the general principles of the bill introduced by Senator Shafroth, which would provide for a general issue of Federal cur-rency to replace all paper money now rency to replace all paper money how outstanding, including National bank notes, the government taking over the bonds and holding them as part security for the currency. Mr. Claffin said he believed the banks rather than the government should issue the circulating notes of the country.

[Special to The Times-Disputch.]
Lynchburg, Va., September 17.—The
twenty-first session of the RandolphMacon Woman's College began to-day with an attendance larger than last year, when the enrollment was 576. A larger number of old students returned to the college this year than was ever the case before. Many students cannot be accommodated in the college dormitories, and these will board in homes adjacent to the college.

To-day marks the real beginning of the administration of Dr. William A. Webb as president of the institution.
